Convergence Technology Consulting Acquires Pride Engineering LLC

Glen Burnie, MD – April 1, 2010 – Convergence Technology Consulting, LLC, a top provider of enterprise infrastructure, virtualization and access solutions announces the acquisition of Pride Engineering, a company that specializes in developing enterprise level software applications.

“Our acquisition of Pride is very exciting to us. We looking forward to continuing their growth plan and combining their capabilities with ours.” said Phil Ernst, CEO/CTO of Convergence Technology Consulting. Larry Letow, President of Convergence added “Pride has built a reputation of delivering expert services within the Department of Defense and the Intelligence Community, which are two clients that are a very important part of Convergence’s future growth.” Because of Pride’s reputation in the industry, the company will be a subsidiary of Convergence Technology Consulting.

Convergence’s success can be attributed to the strength of the company’s employees, business partnerships and expertise and reputation within the Enterprise Infrastructure technologies. In 2008, the company received recognition with Citrix as their SE Partner of the Year and *CRN* list of “2008 Fast Growth 100 Solution Providers.” In 2007, Convergence was named by *Inc.* magazine as one of the fastest growing, privately held companies in the United States.

Pride Engineering’s experience in Software Engineering, Systems Engineering, Database Management and Design, Web Services and Service Oriented Architecture, Enterprise Security, and Configuration Management allows us to build robust and scalable applications from the ground up. We work with the end users and the management team, through the entire life cycle, to design, implement, test, and deploy operational applications.

About Pride Engineering LLC

Founded in 2006, Pride Engineering has been recognized as a preferred software engineering provider within the Department of Defense and the Intelligence Community. Pride specializes in developing enterprise-level software applications with a focus in web application development.

Pride has recently expanded its capabilities to include enterprise security and the cyber initiative.
